Pool for Blessington

To whom it may concern

I am writing to you to ask would you consider a swimming pool for Blessington.

Myself and my family live in Blessington for the last 14 years. we have a 5 year old son. Unfortunately none of us can swim and would like to learn in a community pool. My son has additional needs and during therapy it has been recommended that swimming would be a good activity for him to do.

A pool in Blessington would be a great benefit for the community. Blessington is full of young families like ourselves, unfortunately there is a very few leisure facilities around and therefore we have to travel to places like Naas or Dublin frequently. (Car dependant)

A pool in Blessington would good for business and enterprise in the area. A new pool would encourage other businesses to set up nearby.

It may also encourage more tourism in the area, with our beautiful lakes nearby.

It would be a good focal point for the community and give children, teenagers, adults and older people around the area a place to stay active and fit. I particularly think it would benefit teenagers , as there is not much to do around here for them.

With so many drowning tragedies in the news, highlighting the importance of swimming lessons, I would ask to consider this proposal with serious consideration for our area.

Regards
